### 1) Mental Health and Community Support Programs

Indeed this is a provincial level of government.

**100% I And our team will fight and advocate and let our voices be heard to our MP and MPP of parliament and keep them accountable and make sure we will bring more programs in our very community that is very much needed!**

**The last few years have been difficult to say the least. Stress and mental health issues are at an all time high. It is fundamental to take a closer look into the implications of this.**

**As we begin to more openly discuss these concerns, we begin to understand the importance of making sure we take care of our mental health for our well being.**

**Targeting the topic of mental health first, will improve The following:**

- Helping youth and adults recovering from mental health. Especially our youth, they are our next generations of, police officers, firefighters, doctors, politics, essential services and more, we need to attack mental health together now A.S.A.P!
- Creating new ideas with housing and infrastructure. If we don't take a closer look and aim to improve our society's mental health, there will be less advancement and less creative ideas, since people will be stuck in their personal emotional roller coaster. Supporting our society's mental health is very crucial at this time, especially after living through the difficult times of COVID-19.
- More programs for youth and adults!
- More Public Community Programs
- We also aim to encourage and support in building new careers. We plan to help our people to grow and to get them to their next level of life.
- Supporting in mental health will also improve in community safety, Public Safety. Over time, some of our neighbourhoods have become crime ridden. Currently, our residents are dealing with a motley of petty crimes including shootings. It is imperative that we create a safe environment to raise our children. They deserve to laugh and play in a secure community, free from danger
- Supporting Programs for mental health and Community Support Programs by forging strong relationships with policymakers and enabling those who are most affected to directly participate in decision-making.

An example of Support Program, Anthony Internicola has been working on establishing an awesome support outreach program called "Project Reborn"! This is to support all people when life has taken them what can best be described as an emotional "sink-hole!", "From ground zero to hero.!"

The program will deliver to Youth or Adults an emotional support system through difficult times to help them cope. Let them know they are not alone. Therefore, they can become the individual that they were born to be, with success and happiness! Give back a sense of strength and pride!

### 2) Public Safety!

Some of our neighbourhoods are riddled with crime. Now our residents not only deal with petty crimes but also shootings.

It is imperative that we can raise our children where they can play with an assurance of safety.

- **By tackling Gun Violence and Crime** by Removal of illegal guns off our streets, by cooperating and brainstorm with all levels of government and law enforcement officials. Anthony will demand a greater police presence. Providing more funding for social recreational programs, to keep children and teens engaged with a happy lifestyle, instead of attracting violence and crime.
- We are 100% on board in giving more support to our, Fire, Ambulance and Police that attack every single day with these violence's in our community to keep us safe.

### 3) Public infrastructure, housing, and parks

- The infrastructure of Scarborough Agincourt of Toronto is critical for a harmonious lifestyle and community growth. Starting with a Scarborough subway line, This includes Investing in public roads, Public parks and recreational areas.
- Real estate developments and housing projects should be encouraged and controlled such that the developers contribute to the infrastructure of the area!
- And 100% onboard in keeping our parks and recreational areas very clean! and keeping them safe for our children, adults and a great place to enjoy your time!
- We will keep you informed and at the same time get your feedback. A healthy dialogue between, Councillor Anthony Internicola as your representative, and you, the people he owes his job and his thanks. Town Hall meetings, as well as our website, will be used to accomplish this. For example, re-developments will be presented to you in this manner to ensure the ward would maintain a healthy quality of life.

### 4) Supporting our first Responders

We are 100% on board and giving more support to our first responders, doctors, nurses, fire, ambulance, police, mental health counsellors, and more!

### 5) (TTC Public Transit) The Scarborough Subway

- An important addition to the infrastructure is an extension of the subway system through the community of Scarborough.
- At this very moment City Council planned project for the scarbrough subway to go along Sheppard to the Scarborough Town Centre.....
- **INTERNICOLA Anthony STRONGLY THINKS and especially the vision of the people of our community believe that the Scarborough subway should go beyond Toronto metro zoo! To be exact to Port Union road and Sheppard Ave., East**
- Anthony will strongly advocate for the extension of the Scarborough Subway line into our lovely neighborhood, knowing that the subway will be in our Ward, along Sheppard, immediately upon his election to city council. It has been the vision of the people of Scarborough, for a while now, and it is time to get it delivered to Scarborough!

### 6) Engaging Community by Promoting diverse Multicultural Events

- To engage and foster a community that has their needs met by developing and expanding its services while promoting a diverse multicultural and inclusion in community life.
- By Electing our team with Councillor Anthony INTERNICOLA You Will, see more community engagement such as more Community block parties, Park events, and community barbeques!

### 7) Our Vision + Our Voice!

As your next Toronto City Councillor, It is Anthony Internicola and our Team Commitment to be a Good Listener and to respect your vision and your voice to all the People!

**That is our Sincere Promise to You!**
